

NS2 Dock COOLING FAN

Product Manual(PG-SW2206)

Product Diagram:

Product Features:

1. This product is designed for heat dissipation of the NS2 Dock original docking station.
2. Equipped with a USB-A interface, it supports power input from the NS2 Dock original docking station and provides USB extended port output.
3. The product is compact, sleek, and easy to operate.

Product Technical Parameters:

1. USB Input: 5V, 1.5A
2. USB Output: 5V, 1.0A

Product Instructions:

1. Connect the product to the original NS2 Dock base to provide power input.
2. The product features a fan speed selector switch: OFF (fan off) - 1 (low speed) - 2 (high speed); slide the switch to position 1 or 2 to activate the cooling fan for the Dock base, or to OFF to turn the fan off.
3. The product includes one USB Type-A expansion port that supports peripheral charging and data transmission.

Notes:

1. Do not store this product in damp or high-temperature environments.
2. Avoid striking, dropping, puncturing, or attempting to disassemble the product to prevent unnecessary damage.
3. Do not dismantle the product unless you are a qualified professional, as unauthorized disassembly will void the warranty.
4. This product contains electronic components such as capacitors and must not be disposed of improperly; please recycle through certified e-waste facilities.

NS2 Dock 散热风扇

产品说明书(PG-SW2206)

产品外观图示:

适用说明:

1. 本产品用于NS2 Dock原装底座散热使用。
2. 配备USB A接口，支持NS2 Dock原装底座为产品提供电源输入，支持USB扩展口输出。
3. 产品精巧简洁，操作简单。

性能参数:

1. USB 输入: 5V、1.5A
2. USB 输出: 5V、1.0A

操作使用说明:

1. 将产品接入NS2 Dock原装底座，为产品提供电源输入；
2. 本产品具备风扇开关，OFF档(关闭)-1档(低速档)-2(高速档)，拨动开关到1档或2档，可开启风扇给Dock底座散热，拨动开关到OFF档关闭风扇。
3. 本产品具备一个USB A扩展输出口，支持给外设充电与数据传输。

注意事项:

1. 请不要把本产品在潮湿或高温地方存储。
2. 请不要敲击、摔打、刺穿、或试图去分解本产品，以免对产品造成不必要的损害。
3. 非专业人员请勿拆卸本产品，否则不在售后保修服务内。
4. 产品内有电子电容等电子材料，不可随便丢弃，须集中给有资质的回收机构。
